- Relief vehicles
- Reporting – live online and available 24/7
- Dedicated Client Relationship Manager
- Online driver safety program

Lease Types

FleetPlus offers customised, scalable and cost-effective options which can be customised to your organisation's fleet needs and business goals.

Operating Lease

An Operating Lease offers a fixed monthly repayment which covers the leasing of your vehicles. You don't build equity in your fleet, however your organisation may be able to claim the full lease expense and running costs as a tax deduction. End of lease options include - extending the lease, upgrading to a new vehicle, returning the vehicle to FleetPlus or purchasing the vehicle.

Frequently Asked Questions

How many vehicles do I need to justify Fleet Management?

We manage fleets ranging in size from ten vehicles, to thousands. FleetPlus can review your fleet management practices to help you maximise the returns on your assets, while also managing your vehicles.

What if we already have a fleet of business vehicles?

Our 'Sale and Lease Back' option may be a way to inject funds back into your organisation. We can purchase your current vehicles and lease them back to you for one, fixed monthly payment.

Finance Lease

With a FleetPlus Finance Lease your organisation makes fixed monthly repayments that may be tax deductible and pays a set residual amount to own or upgrade the vehicle at the end of the lease. Other end of lease options include extending the lease, or handing the vehicle back to FleetPlus after the payment of your outstanding residual amount.

Choose the convenience of a maintained Finance or Operating Lease with vehicle running costs - including fuel, maintenance, registration, insurance and tyres - included in the one monthly repayment.

Novated Leases for Employee Salary packaging (AU Only)

FleetPlus can help you reward and keep your quality employees with a tax-effective Novated Lease which can maximise their salary.

Can Fleet Management help make my fleet more efficient?

With FleetPlus telematics your fleet's performance can be monitored, analysed and fine-tuned. With detailed reporting available 24/7 FleetPlus can help identify areas where efficiencies can be gained.

Who looks after the fleet maintenance?

FleetPlus can manage all ongoing vehicle servicing and maintenance at a competitive price, to help maintain vehicles in peak condition and minimise unscheduled downtime.

How to Apply

FleetPlus offer a fast, easy credit application process and we can guide you every step of the way.
